

College and Cherry Project virtual meeting information

To Columbia Gas customer,

As we've continued work during the COVID-19 pandemic, we've adjusted our processes and instituted safety protocols to keep our customers, communities and employees safe.

Typically, for a gas line upgrade project, we hold an in-person meeting to go through the project, and our teams would be available for your questions and concerns. We still plan to be available, just virtually.

On **January 26, 2021 at 6 PM** we will hold a virtual meeting. You may join via mobile device, desktop or phone.

If you are unable to attend, you may contact me any time before or after the meeting to discuss the project.

Meeting link: <https://bit.ly/3hHSHdF>

Event password: Woodville 2021

Call-in number: US Toll Free 1-866-692-3580

Access code: 179 699 7546

Directions

Access via call-in*: Call the number listed. When prompted, enter the Access Code followed by "#". It will ask for an attendee number but you may simply press "#".

Access video via mobile or desktop*: If on mobile, please download the Cisco Webex Meeting application. Enter the meeting link into your browser. Click "Join" on the first screen. If on desktop, after entering the link into your browser, type in your first name (or initial), last name (or initial) and e-mail. Then click "Join Now". An event screen will pop-up to which you can click "Join Event".

**Please note: All attendees will be muted upon entering to ensure minimal background noise. We will have available times throughout the presentation to ask questions.*

If you have any questions, don't hesitate to reach me at Rcolon@nisource.com or (419) 351-8398.

Hope to see you all, virtually!
